

How to Cleanse Your Lashes Properly:

Note: You should remove as much makeup as possible before beginning or you may have to repeat this process several times.

Step 1 - In lid of shampoo bottle, start with 2 pumps of foam cleanser.

Step 2 - Using cleansing brush in a downwards motion, swipe thru the lashes making sure you're starting at the base or root. Cleanse the eye thoroughly this way. If wearing make up you may gently go side to side on the eyelid as close to the lash line as possible. (Repeat as necessary.) You may also use the makeup applicator wand to cleanse closely to the lash line.

Step 3 - Use your disposable or reusable lash brush to gently brush thru the lashes midway to end until they dry completely, or you may let them dry then brush through, or use a small hand fan on cool setting.

I have aftercare products for retail including: lash shampoo, face wash, cleansing brush, lint free applicator wands, microfiber cloths, bottom lash mascara, reusable covered lash wand, sleep masks, and eyelash proof eye make-up*.

*Due to all make-up selling out quickly, pre-order is highly recommended. All items are for instore pick up only at this time.
